New Book Examines the Entire Bible Through the Lens of Servant Leadership

LOUISVILLE, KY — In *Servant Leader Strong: Uniting Biblical Wisdom and High-Performance Leadership* (DeepWater Books, Dec. 2019), author Tom Harper takes the reader on a journey through every book of the Bible, identifying hundreds of verses that expand the traditional concept of servant leadership.

“Secular literature has essentially redefined servant leadership by removing Christ’s name and teachings,” said Harper. “I wanted to not just shine the spotlight back on him, but point to the timeless wisdom found in all of Scripture, Old Testament to New.”

For leaders in the church or marketplace—or anywhere leadership principles can be applied—this book is a useful tool, filled with bite-sized practical tips and encouragement. Topics include how to motivate people, dealing with worry and fear, criticism, developing healthy authority, mission and vision, staffing issues, and leaving a legacy.

Servant Leader Strong is the result of Harper’s three-year search through the Bible for wisdom on how to achieve results through servant leadership. It is a how-to manual for any Christian leader in need of bold, biblical encouragement.

Tom Harper is CEO of Networld Media Group and publisher of **BiblicalLeadership.com**, a free online source of encouragement, tips and how-to for leaders seeking to apply biblical principles in their daily lives. Tom lives in Louisville, Ky. with his wife and three children. He is the author of the business fable *Through Colored Glasses: How Great Leaders Reveal Reality* (DeepWater, 2018) and *Leading from the Lions’ Den: Leadership Principles from Every Book of the Bible* (B&H, 2010).

Tom Harper is available for interviews. Release date: Dec. 10th, 2019
